PHONE#: \_\_\_\_\_ WORK#: \_\_\_\_\_

ADDRESS: \_\_\_\_\_

EMAIL ADDRESS: \_\_\_\_\_

PLACE OF EMPLOYMENT: \_\_\_\_\_

Are you 18 years of age or older? Yes: \_\_\_\_\_ No: \_\_\_\_\_

Pets/Friends for Life has a policy that all adopted cats go to homes where they will be indoor cats only. Many of our cats have come to us from a life on the streets after they have been abandoned or lost from a previous home. We wish to ensure that these cats do not have to suffer the dangers of the outdoors again which include cars, other wild animals, dangerous plants and substances. If you are adopting a cat from us, please consider the cat's long term safety and respect our **"INDOORS ONLY"** policy. We wish them to live a long, healthy and safe life and this can be done by keeping them indoors! \*\*\*\*\*Integrating a new cat into a household with other pets requires patience. There may need to be several days of separation and slow introduction of current pets to the new feline addition. Please inquire about practical solutions if unsure about how to add a new feline member to the household.

Have you had pets before? \_\_\_\_\_

Have you ever surrendered a pet? If so, why? \_\_\_\_\_

Do you have a VETERINARIAN? If yes, please list: \_\_\_\_\_

Why do you wish to adopt? \_\_\_\_\_

Have you ever adopted from us before? YES \_\_\_\_\_ NO \_\_\_\_\_

Adoption fee paid by: Credit card \_\_\_\_\_ Debit \_\_\_\_\_ Cash \_\_\_\_\_

\*\*\*\*When adopting a kitten from Pets/Friends for Life (PFFL), our adoption fee which is \$180, includes mandatory spaying/neutering, first vaccinations plus rabies only, de-fleaing and deworming in addition to a wellness check by a veterinarian. We work with several veterinary clinics to spay and neuter our cats and kittens. Spays/Neuters are only done when the kitten is at minimum 4 months of age along with the rabies vaccination. Cats and kittens will be adopted out but MUST be spayed or neutered within 90 days of adoption if not already done so for our organization to contribute towards this cost. PFFL will help adopters with these arrangements if they do not have a veterinarian they wish to use. The cat/kitten will be in PFFL's possession during the spay/neuter procedure for up to 2 days. A list of some local veterinarians is being provided. If you wish to see a veterinarian of your choice for spaying/neutering, a paid certificate or invoice from a veterinarian must be provided in order for our organization to refund a portion of this procedure to the adopting family/person. The balance is the adopters' responsibility. The cat's health record will be included in the adoption paperwork. Pets/Friends for Life, in good faith, adopts cats/kittens who are deemed to be in good health upon release from our shelter. PFFL strongly recommends that you take your new kitten to a veterinarian within 2 weeks for a full examination. \*\*\*PFFL, at its discretion, will continue to provide health care assistance for upper respiratory illness for up to **two weeks** post adoption. Should a kitten require health care assistance for this medical condition, adopters will be reimbursed up to \$70 for veterinarian care (examination and medication fee) for this procedure if they see a veterinarian of their choice (copy of paid invoice required). Adopters may request that PFFL provide medical care for an upper respiratory infection and will be required to temporarily return/release the kitten to PFFL so that we can provide care at a veterinarian of our choice.

**ADOPTERS MUST CONTACT THE SHELTER IMMEDIATELY IF THEY SUSPECT THE KITTEN IS IN NEED OF MEDICAL CARE FOR UPPER RESPIRATORY ILLNESS! \_\_\_\_\_ Initials**
